## ACCREDITATION SCHEME FOR VALIDATION/VERIFICATION BODIES

### Rules and Procedures for accreditation of validation/verification bodies

## 1. Introduction

The Sri Lanka Accreditation Board for Conformity Assessment (SLAB) is the National Accreditation Authority of Sri Lanka established under Act No. 32 of 2005. The SLAB offers accreditation services to bodies that provide conformity assessment services such as testing, medical and calibration Laboratories, certification bodies for systems, products and persons, inspection bodies, validation/ verification bodies (V/VB), good laboratory practice and proficiency testing providers.

The work procedures of the SLAB for V/VB are based on ISO/IEC 17011:2017 - Conformity Assessment-Requirements for accreditation bodies accrediting conformity assessment bodies. Preference will be given to subject specific documents published by Asia Pacific Accreditation Corporation (APAC) and International Accreditation Forum (IAF) wherever applicable & provides guidelines on application of ISO/IEC 17029:2019 and it is intended to be used by SLAB for accreditation of Validation Verification Bodies. The Governing Council of SLAB or relevant advisory committees, if required, will develop specific guidelines and advice the SLAB management in the areas for which there are no IAF, APAC or other acceptable interpretation documents available.

### 1.1 Scope

This document outlines the Rules and Procedures to be adopted when V/VBs seek accreditation for their V/VB activities from SLAB. V/VBs activities for accreditation by SLAB cover the scope sectors applicable to V/VBs at organizational and project level are given in Appendix I. Accreditation will be granted against the applicable International/Regional or National Standards or widely accepted standards or guidelines that are auditable or verifiable. Conformity assessment schemes/criteria for V/VBs are reviewed by the SLAB and determine its suitability.

## 2. Accreditation requirements

### 2.1 Accreditation criteria

The international standard ISO/IEC 17029 Greenhouse gases – General Principles and Requirements for validation and verification bodies used by the SLAB along developed subject-wise, as applicable and required for accreditation of V/VBs rules and procedures explained in this document, Terms and conditions for maintaining accreditation and other General policies identified as reference documents in this document.

All applicants and accredited V/VBs are advised to read this document and other related documents prior to apply for accreditation and contact SLAB for any clarification/ further information if required.

If this document or documents referred in this document are revised, the SLAB will announce it in the official website ([www.slab.lk](http://www.slab.lk)) and automatically adopt those modifications in its criteria, but will give the parties concerned a realistic period of time for the transition.

Development of accreditation criteria involves a step to obtain views of interested parties and public comments prior to publication. Therefore, applicants and accredited V/VBs are requested to forward any written views/suggestions directly to the SLAB.

The applicable international documents, used by the SLAB for accreditation, are given below;

As relevant to the Accreditation Schemes, the following mandatory documents and resolutions are published time to time by International and Regional Accreditation Organizations as applicable as Accreditation Criteria. Depending on each accreditation scheme/scope (s) Specific criteria/guidance will be developed.

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 3 of 25

The V/VBs seeking accreditation shall comply with the requirements as specified below;

Levels / Schemes	IAF MLA - Schemes
	Validation and Verification
<b>Level 1</b> Generic criteria for an AB	ISO/IEC 17011:2017 - Conformity assessment - General requirements for accreditation bodies accrediting conformity assessment bodies
<b>Level 2</b> Accredited conformity assessment activities	Validation and Verification
<b>Level 3</b> Accreditation Standard	ISO/IEC 17029:2019 Conformity assessment — General principles and requirements for validation and verification bodies ISO 14065:2013 Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation and other forms of recognition
<b>Level 4</b> Scope specific criteria	<ul style="list-style-type: none"> <li>• ISO 14065:2020 General principles and requirements for bodies validating and verifying environmental information</li> <li>• ISO 14064-3:2019 Greenhouse gases — Part 3: Specification with guidance for the verification and validation of greenhouse gas statements</li> <li>• ISO 14066:2011 Greenhouse gases — Competence requirements for greenhouse gas validation teams and verification teams</li> <li>• ISO 14066-2023 - Environmental information, Competence requirements for teams validating and verifying environmental information</li> <li>• ICAO CORSIA Version 1 with ICAO CORSIA Environmental Technical Manual –Volume IV</li> </ul>
<b>Level 5</b> Scope specific conformity assessment standards	<ul style="list-style-type: none"> <li>• ICAO CORSIA SARPs Annex 16 Volume IV</li> </ul>

Other applicable international scheme documents, not covered above, but used by the SLAB for accreditation, are given below;

<b>Level 4</b> Scope specific criteria	VERRA programme (s) Other National or International Schemes cover under ISO/IEC 17029:2019
<b>Level 5</b> Scope specific conformity assessment standards	VCS Program rules and the applied methodologies (Recommended/Latest version) CCB-Climate, community & Biodiversity Standards (Recommended/Latest version) Other National or International Schemes cover under ISO/IEC 17029:2019

### SLAB Documents

If any document mentioned above is revised, the SLAB will automatically adopt those amendments/modifications in its criteria (If any) or in guidelines parties concerned are given sufficient time as prescribed in publications of International/Regional Accreditation Organizations or as deemed suitable by SLAB for transition.

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 5 of 25

## 2.2 Eligibility

The applicant V/VB must comply with all criteria of Applicable Standard/Guide. In addition to this the applicant V/VB must comply with the relevant regulations (if any) and relevant specific criteria (if any) of SLAB for the scopes covered in their V/VB scheme.

V/VB that perform V/VB activities (organizational and project level), that has international or local recognition and acceptance can be accredited by SLAB.

The applicant V/VB must ensure that their validators/verifiers are competent and involved in continual professional development activities gaining skills and competencies as well as updating themselves to meet the demands and expectations of the clients/ stakeholders.

For an initial application or scope extension, the Validation /Verification body must complete at least one audit and records shall be available for each Validation/Verification given in the scope of accreditation and there shall be competent Validators or Verifiers for each statement /opinion given in the scope of accreditation.

The applicant V/VB shall have conducted at least one internal audit and one management review before the submission of application to the SLAB.

## 3. Preparation for accreditation

### 3.1 Preparing for accreditation of Validation/Verification bodies

The management of V/VB should first decide to obtain accreditation for their V/VB activities from SLAB. It is important for a V/VB to make a definite plan of action for obtaining accreditation and nominate a responsible person to co-ordinate all activities related to the accreditation process. The person nominated should be familiar with the V/VB's existing quality system. SLAB will coordinate matters related to the accreditation process only through the authorized representative of the V/VB.

A request can be made to SLAB in person, by post, by telephone or by E-mail for relevant information on Accreditation. Information regarding the SLAB Accreditation process, relevant documents and application form will be available as freely downloadable documents from the SLAB website ([www.slab.lk](http://www.slab.lk)). The V/VB should be acquainted with the SLAB assessment procedure & methodology before submitting the application in the prescribed format.

Management system documents shall be prepared in accordance with the requirements specified in the applicable standard/guide and this should be supplemented by a set of other documents such as procedures, standards, regulations work instructions etc. to be in accordance with the particular quality system requirements. The V/VB must ensure that the procedures described in the management system documents and other documents are being implemented.

V/VB needs to establish the status of its existing quality system and technical competence with regard to requirements of SLAB for accreditation.

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 6 of 25

### 3.2 Scope of Accreditation

The scope of the accreditation, often referred to as the 'scope', is defined as those activities for which to be covered under SLAB accreditation. The scope also specifies the locations/branches where the V/VB carries out its activities.

During the pre-assessment process, the scope of the accreditation is discussed with the V/VB in detail, and the nature and extent of the assessment will be based on that.

The details of scopes with regard to Validation and Verification management systems are given in **Appendix I**.

## 4. Accreditation process

The accreditation process consists of registration followed by resource review, document and record review, a pre-assessment and an initial assessment, grant of accreditation surveillance assessment, re assessment and witness assessment(s). In addition, Verification assessment, follow-up assessment, witness assessment and unannounced assessments may plan as required.

### 4.1 Application and Registration for Accreditation

The validation and Verification body shall submit application documents of the V/VB to SLAB.

The application shall be accompanied with the prescribed application fee stated in the fee structure (VVB-RG (P)-01). Application fee is nonrefundable. V/VB has to take special care in filling the scope of accreditation for which the V/VB wishes to apply. In case, the V/VB finds any clause of the standard (in part or full) not applicable to the V/VB, it shall furnish justifiable reasons.

Applications are not accepted and registered until the submission of required documents and application fee.

Applicant V/VB may withdraw its application or discontinue accreditation process before granting accreditation. In such case, applicant V/VB shall settle all due payments, if any. For foreign applicant/ accredited V/VB shall follow policy on cross frontier accreditation (AC-RG (P)-07) and accreditation fees as stated in fee structure (VVB-RG (P)-01).

Applicant Validation/Verification body may withdraw its application or discontinue accreditation process before granting accreditation. In such case, applicant VVB shall settle all due payments, if any.

Foreign applicant/accredited certification bodies shall follow policy on cross frontier accreditation (AC-RG(P)-07) and accreditation fee as stated in fees structures (VVB-RG(P)-01).

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 7 of 25

## 4.2 Special Cases

- **Additional Accreditation**

If a V/VB that is already accredited wishes to expand its accreditation for a new scheme or scope expansion for the existing accreditation. The procedure is the same as for a new registration. However, in such case, the assessment effort by the SLAB may be limited to cover the areas not covered by the existing accredited system and certain specific areas as decided by SLAB.

- **Already Accredited Validation /Verification Body**

In case an applicant V/VB is already accredited for the applied scope by another Accreditation Body with IAF membership, in compliance with the SLAB Cross Frontier Accreditation Policy explained in AC-RG(P)-07, SLAB will communicate with the particular Accreditation Body to collect necessary information and will seek possibilities to act in collaboration with the said Accreditation Body when processing the Accreditation Application. In such circumstances the SLAB may grant accreditation with or without conducting assessment; however, any such decision will be taken at the sole discretion of SLAB.

- **A V/VB operating in a foreign country**

In case if an applicant V/VB operating in a foreign country of which accreditation body has been a IAF MLA partner is seeking accreditation, SLAB will initially communicate with that accreditation body inquiring its obligations or objections with regard to processing of such application and based on the response will proceed with the application following the SLAB Cross Frontier Policy explained in AC-RG(P)-07.

- **Validation and Verification bodies with multi-locations**

Applicant V/VB operating through the main office and locations shall declare in the initial application or subsequent application on its VVB activities in the main office, locations and how the common management system covers both main office and locations

## 4.3 Acknowledgement and Registration of Application

SLAB on receipt of application documents and other relevant documents and the fees, shall issue an acknowledgement to the V/VB. After scrutiny of the application for its completeness in all aspects, a unique accreditation number shall be allocated to the particular application, which shall be used for correspondence with the V/VB thereafter.

In case of any V/VB with multiple sites controlled by a main organization, same number shall be continued unless requested by the V/VB /decided by the Technical manager.

SLAB may request for additional information/ clarification(s), if necessary, from the applicant V/VB.

If, on the basis of documents and information provided by the V/VB, SLAB is of the opinion that an assessment cannot result in accreditation, the applicant V/VB shall be informed in writing giving reasons.

The SLAB's policies, processes /and procedures are non-discriminatory and applied in a non-discriminatory way. SLAB makes its services accessible to all applicants whose application for accreditation falls within the scope of its accreditation activities as defined within its policies and

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 8 of 25

rules. Access shall not be conditional upon the size of the applicant V/VB or membership of any association or group, nor shall accreditation be conditional upon the number of V/VBs already accredited.

#### **4.4 Appointment of authorized officer & resource review**

Once the registration of application is completed with required documents, technical manager of accreditation scheme for V/VB appoints one of competent assistant director/deputy director (accreditation)/ Development officer as authorized officer for the application and continuation of accreditation process.

A resource review (technical review) will be carried out by the authorized officer in consultation with technical manager and collect additional information from the V/VB, if required. Authorized officer may indicate in the application form the additional information to be collected if required, for the assessment.

If relevant resources are not locally available steps will be taken to obtain resources through another accreditation body with the consent of the V/VB. If the initial assessment cannot be conducted in a timely manner, this shall be communicated to the V/VB.

Authorized Officer will contact the V/VB with respect to application and further information required, if any. Authorized officer is the contact person for the applicant V/VB.

#### **4.5 Document & record review**

##### **4.5.1 Appointment of assessor/ team leader**

The SLAB will appoint a competent Assessor/Team Leader from the pool of assessors to carry out document and record review on the management system documentation adopted by the applicant V/VB.

##### **4.5.2 Adequacy of quality manual/management system documentation**

The competent assessor/team leader of SLAB will commence the assessment process with an adequacy assessment of document and record review based on the application submitted within one month. The aim of the adequacy assessment is to determine whether the V/VB is sufficiently prepared for a pre-assessment and having a reasonable chance of getting accreditation and to ascertain the compliance of the documents with the criteria specified in the applicable standard. The adequacy assessment is also meant to obtain a clear idea of the intended scope of the accreditation.

The Team leader/assessor shall inform SLAB regarding the adequacy of the management system documentation, indicating inadequacies (if any) in the documentation which in turn should be communicated to the applicant V/VB. Based on this feedback the V/VB shall amend the management system documents and also implement the quality system accordingly and submit objective documentary evidence for corrective actions taken before not later than three months.

An extension of two months may be considered based on justifiable reasons. Any failure to submit satisfactory corrective actions for the document and record review within five months, a fresh application including the application fee shall be submitted.

<b>SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT</b>				
<b>Title:</b> Rules & Procedures for accreditation of validation/verification bodies			<b>Doc No:</b> VVB-RG (P) -02	
<b>Issue No:</b> 02	<b>Date of Issue:</b> 2023-06-30	<b>Rev No:</b> 01	<b>Date of Rev:</b> 2024-02-01	<b>Page 9 of 25</b>

If the V/VB satisfies the relevant requirements at the adequacy assessment stage or after the V/VB has taken necessary corrective action based on the adequacy assessment, the assessment process will move to the next accreditation process.

The document and record review process shall be satisfactorily completed within seven months.

If, on the basis of documents and information provided by the V/VB, SLAB is of the opinion that an initial assessment cannot result in accreditation, the applicant V/VB shall be informed in writing and the documents concerned will be returned to the V/VB for necessary improvement.

If the outcome of the document and record review is not satisfactory, SLAB may decide not to proceed with the application. In such cases, results with justification shall be reported in writing to the V/VB.

#### **4.6 Appointment of Assessment Team**

Towards the task of on-site/remote assessment, the Team leader shall be assisted by a team of Assessors/ technical experts who will be appointed by SLAB as appropriate with the scope of accreditation and in accordance with the criteria adopted for the selection of Team leader. The SLAB will propose the composition of assessment team. The V/VB may lodge an objection in writing against specific team members with justifiable reason to do so. Such an objection shall be reviewed by the technical manager to determine the validity of objections to ensure the impartiality and credibility of accreditation process. If the objection is found to be valid, a new team or a new member is nominated in place of the member (s) in question. If no replacement is available, it is possible that the visit will be postponed, or that a part of the scope will not be assessed until a suitable replacement is found.

SLAB may also nominate one of its officers to participate in the assessment, unless an officer is appointed as an assessor/observer/staff officer during the on-site assessment to convey his/her opinions to the team leader and to provide clarification on the international standard and SLAB specific criteria (if any) to the assessment team and keep coordination with SLAB whenever necessary.

As MLA partner of APAC and IAF, SLAB may select assessment of V/VB for peer evaluations and appoint peer evaluators as observer of assessment. In addition, assessment team may consist witnessing assessor from SLAB to evaluate the performance of SLAB assessors.

#### **4.7 Assessment Plan**

The SLAB contacts the V/VB to agree on the date(s) and assessment plan for the assessment. Based on this SLAB prepares the assessment schedule (VVB-PL-01) and the composition of the team and send it across to the V/VB well in advance. Authorized officer of SLAB will request information on due assessments at V/VB's clients in order to plan witness assessments at different locations. For this purpose, V/VB shall include possibilities of witnessing by the accreditation body assessors into contractual agreements with V/VB and its customers.

#### **4.8 Assessment**

The assessment will be carried out two stages namely pre-assessment and initial assessment (Initial assessment is the final assessment for the grant of accreditation). During both these assessments, witness assessments at the site of the applicant V/VB's client may be required.

<b>SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT</b>				
<b>Title:</b> Rules & Procedures for accreditation of validation/verification bodies			<b>Doc No:</b> VVB-RG (P) -02	
<b>Issue No:</b> 02	<b>Date of Issue:</b> 2023-06-30	<b>Rev No:</b> 01	<b>Date of Rev:</b> 2024-02-01	<b>Page 10 of 25</b>

Although there are no strict demarcations for these two assessments, the objectives of these assessments may be expressed in the following manner. On site assessment consists an opening and closing meeting. Therefore V/VB shall arrange required facilities to conduct meeting with assessment team members and key personnel of the V/VB and the assessment.

The assessment team shall commence an assessment with an opening meeting at which the purpose of the assessment and criteria are clearly defined and the assessment plan and the scope for the assessment are confirmed. During the assessment, the assessment team will assess the documentation and implementation of the management system as well as the competence of the V/VB in accordance with the applicable standards and specific criteria (if any) of SLAB. In doing so, the assessment team will select a representative sample in the areas within the scope of the accreditation.

The assessment team shall be able to assess at least one complete cycle of the internal audit and management review.

**4.8.1** In the Initial Assessment, in addition to visiting the main or head office, based on the Scope of accreditation, visits will be made to all of critical locations from which one or more key activities are performed

- Policy formulation
- Process and/or procedure development, contract review
- Ongoing monitoring of Validators/Verifiers
- Planning & conducting Validation/verification
- Review and approval and decision on Validation/verification.

Whenever a new critical location has applied, that critical location will also be witnessed

#### **4.8.2 Assessment of non-key activities**

The VVB shall identify non-risk activities carried out at the head office and other its locations (eg. audit planning, marketing, promotion, financing etc.). Depending on the non- risk activities SLAB will decide whether to assess from the head office or visits may be arranged to relevant locations accordingly. The information provided by the VVB will be verified during assessments by the assessment team.

#### **4.8.3 Conduct of witness assessments**

This process shall be extended to witness assessment activities also. The V/VB shall demonstrate that it is competent in all the activities at all sites for which accreditation has been requested. With regard to the management system of the V/VB, witness assessments depending on the complexity and risk involved in the scope sectors. The Authorized Officer in consultation with Technical Assessor/s. shall also discuss and arrange Witness assessments in case of Validation/Verification Bodies activities and related logistics. For the decision, the results of witnessing shall also be considered, if relevant and available.

The validation/verification conducted at foreign clients of the VVB will also be selected for witnessing based on the scope of accreditation.

#### **4.9 Pre-assessment**

Upon completion of document and record review, a pre assessment is conducted to gather information on following;

- a. Assess the completeness of the documentation structure of the implemented system
- b. Assess the degree of preparedness of the V/VB for the initial assessment

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 11 of 25

- c. Study the scope of accreditation so that the time frame, number of assessors required in various disciplines and visits to sites, if applicable.

Pre assessment is conducted by a Team leader or and Assessment team which consists Team leader/Assessor/ Technical assessor/Technical expert. If required, on site witnessing may also be arranged at the pre assessment stage. At the end of pre assessment, assessment team complete pre assessment report and deficiencies identified during the pre-assessment and obtain the acknowledgement for recommendation and findings from the V/VB. The Assessment team verifies the man-day requirement for the initial assessment and propose and report required changes and planning of the initial assessment.

V/VB shall take necessary corrective actions for the deficiencies and submit documentary evidences within two months. On request, an extension of two months will be given on request with justifiable reasons. However, if the V/VB submits corrective actions within four to eight months. Technical Manager may decide on continuation of application base on justifiable reason. Any failure to submit documentary evidences within eight months, and wishes to continue the application, a fresh pre-assessment shall be conducted. The decision on discontinuation of the application shall be communicated to the V/VB.

Upon the successful completion of the pre assessment, the V/VB shall be notified and shall be informed to prepare for the initial assessment.

#### 4.10 Initial assessment

Upon completion of pre assessment, an initial assessment is conducted to

- a. Assess the effectiveness of the implementation of the documented system
- b. V/VB’s competence in performing verification and validation activities
- c. Finalize the scope of accreditation
- d. Take a decision on the recommendation for the grant of accreditation
- e. Decide follow up actions required to verify the effectiveness of corrective actions taken for previous nonconformities

At the end of each assessment, a closing meeting is conducted to disclose findings of the assessment. Initial assessment report contains assessment report, scope of accreditation, nonconformities and other relevant assessment records. Initial assessment report shall also provide a recommendation towards grant of accreditation or otherwise. Assessment team is not allowed to take decisions on granting accreditation.

V/VB shall submit corrective actions within two months with satisfactory documentary evidence. However, depending on the severity of actions to be taken, V/VB may take additional time up to one year from the date of initial assessment, for taking suitable actions in agreement with SLAB.

If follow-up assessment is recommended, it shall be conducted within ten months from the date of the initial assessment and corrective actions for non-conformities raised at the follow-up assessment shall be submitted within one month.

If the corrective actions cannot be submitted for all nonconformities within one year another Initial assessment shall be arranged

A verification assessment may be recommended for the effective implementation of corrective actions and the authorized officer shall arrange the assessment in consultation with the V/VB.

- Based on the recommendations of the assessment team
- Based on the corrective actions submitted by the CAB
- Based on the recommendations of the accreditation committee

A follow-up assessment may be recommended based on the following situation and the authorized officer shall arrange the assessment in consultation with V/VB,

- Based on the level of the establishment and implementation of the quality management system.
- Based on the corrective actions submitted by the CAB.
- Based on the recommendations of the accreditation committee.

CABs files of Validation/Verification Bodies covering the scopes (e.g. Scope sectors) shall be reviewed during the assessment based on the risk associated with the scopes.

In case of a joint assessment conducted at a V/VB with a foreign accreditation body, the recommendation shall be given to the V/VB based on both assessment reports.

The assessment should not proceed into next stage unless all non - conformities are satisfactorily addressed and closed

#### 4.11 Assessment techniques

The SLAB assessors use one or more combination of the following assessment techniques when conducting the assessment.

- **Document review:** assessing quality system documentation for compliance with the criteria; a document review can also involve records at the V/VB's location, such as personnel files, quality control charts, audit reports, management review reports, etc.;
- **Office assessment:** an assessment at the premises of the V/VB in order to assess the implementation of the system;
- **Interviews:** evaluating the expertise of the V/VB's personnel via targeted interviews.
- **Witnessing:** observing validations and verifications carried out by the V/VB shall be witnessed as per the policy on assessment of V/VBs with multi-sites and witness assessments. Please refer Sec. 4.8.3.

A representative number of files of validators/ verifiers/ technical experts covering the scopes shall be reviewed during the assessment

When planning and conducting assessments any national/regulatory requirements/ risk & complexities associated shall be considered, if relevant.

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 13 of 25

#### 4.12 Accreditation decision

After satisfactory closure of all non-conformities, the SLAB prepares a summary of all relevant information gathered during the processing of the application, the assessment report prepared by the assessment team, additional information received from the V/VB and the consequent follow-up and verification activities. The summary report is placed before the accreditation committee which is appointed by the Governing Council as per the provision of SLAB Act. The accreditation committee for V/VBs studies the assessment reports, nonconformities and corrective actions, scope of accreditation, final report (VVB-FM-46) and the recommendation given by the team and then makes its own decision on the grant of accreditation.

The accreditation committee decision on the approval of granting the accreditation shall be submitted to the Council through Director/CEO, SLAB for information.

The SLAB informs the V/VB in writing of the decision taken. All decisions taken by SLAB regarding grant of accreditation shall be open to appeal by the V/VB consistent with the appeal procedures (GN-PR(P)-09) within thirty days.

#### 4.13 Issue of accreditation certificate and schedule

As soon as a decision is taken to grant accreditation SLAB will prepare the following documents.

Accreditation certificate with a unique number for identification duly signed by the Director / CEO, SLAB. This certificate specifies the date on which the accreditation was granted, the standards based on which the accreditation was granted and the period of validity of the certificate.

A schedule of accreditation referring to the scope of accreditation with type of validation, verification and information and validity period of locations/sites covered under accreditation.

Terms and condition for maintaining accreditation (VVB-RG(P)-03) is considered as the agreement between SLAB and V/VB. This contains the rights and obligations of both parties; the party providing the accreditation and the party being accredited and signed by both parties. In addition to use the IAF MLA mark, a separate agreement to be signed by both parties. The applicant V/VB must fulfil all the financial obligations payable to SLAB, before receiving the certificate(s).

#### 4.14 Post Accreditation Assessments

The SLAB accreditation certificate shall be valid for a period of three years unless specified by the SLAB. During the validity of accreditation, the V/VB must continuously comply with the requirements of applicable standard and “Terms and condition for maintaining accreditation” (VVB-RG (P)-03). In this regard SLAB will periodically review the validity of accreditation. To this end, the SLAB carries out surveillance assessments and a re-assessment within three years. During the accreditation period, the scope of the accreditation may be changed.

#### 4.15 Surveillance

The surveillance will be planned by the Authorized Officer depending on the accreditation cycle. SLAB will conduct annual surveillance of all accredited V/VB or following surveillance

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 14 of 25

activities may be decided by the Technical manager based on the risks associated with the activities;

- Special on-site assessment/remote assessment
- Review of changes to V/VB's management system
- Conduct advanced surveillance assessment

Surveillance is aimed at examining whether the accredited V/VB is maintaining all the requirements of the ISO/IEC 17029:2019 and SLAB policies / specific criteria (if any).

As planned in the assessment schedule, Authorized officer of SLAB will in writing inform the accredited V/VB of the surveillance assessment at the beginning of the year and agree on the dates of surveillance assessment before the due date of assessment.

The V/VB during the validity of accreditation may request to extend the scope of accreditation for which they should preferably apply before the conduct of assessment/ surveillance. The mode of surveillance visit is similar to the initial assessment and it will cover only selected areas. The non-conformities, if any, shall be closed within two months of conduct of surveillance. The summary of the surveillance report along with other relevant information shall be submitted to the Director / CEO, SLAB to make a decision on the continuation of accreditation or otherwise. SLAB will inform the V/VB, in writing, about the decision.

If there are remaining nonconformities with a justification by the Technical manager considering the associated risks, a letter of continuation of accreditation may be sent to the V/VB with conditions or suspend accreditation relevant to the particular nonconformity.

When a follow-up /verification assessment is recommended and conducted, documentary evidence for corrective actions for remaining nonconformities/ new nonconformities, if any shall be sent to the SLAB within a month unless there is any issue which may be compromised with reasonable justification.

On practical situations, faced by either party with reasonable justification, the maximum time that should be allowed for advancing or delaying the annual surveillance shall only be three months from the planned surveillance assessment.

The surveillance assessment process shall be completed within ten months from the date of surveillance assessment. If the V/VB failures to complete the surveillance process, the suspension procedure shall be followed.

#### **4.16 Reassessment and or renewal of accreditation**

As planned in the assessment schedule, Authorized officer will in writing inform the accredited V/VB of the re-assessment at the beginning of the year.

Accredited V/VB shall apply four months before the expiry of accreditation for renewal of accreditation as per the terms and conditions for maintaining accreditation (VVB-RG (P) -03). Application for renewal of accreditation is similar as initial application described above Sec. 4.1. Re –application shall be accompanied with the application fee as described in the fee structure.

The V/VB may request for extension of scope of accreditation, which should be explicitly mentioned in the application form.

The procedure for processing of renewal of application is similar to that of first application except that no pre-assessment is conducted and likewise, the procedure for the reassessment visit is similar to that of initial assessment. If the results of reassessment visit are positive and all non-conformances are closed before the expiry of the validity of accreditation certificate, then the validity of the certificate is extended by a further period of three years without any discontinuity unless specific by the SLAB. In case of renewal, a new certificate and a schedule of accreditation is issued while the certificate number is retained. The decision on renewal of accreditation is also taken by the accreditation committee for V/VBs.

#### **4.17 Special Assessments-**

The SLAB may organize extraordinary assessments, unannounced or ad hoc or other activities under the following circumstances.

- Repeatedly finds nonconformities or many nonconformities during the surveillance/ reassessment which directly affect to the credibility of accreditation.
- Receiving complaints that are substantiated with facts or on instances where the V/VB is found to be misusing the certificate/ accreditation symbol.
- Based on public complaints, publications or information from interested parties and the government.

The Director/CEO, SLAB with the recommendation of Technical manager may decide to carry out special assessments at any time during the period of validity of accreditation. The execution of special assessments may take place with no prior notification or with short time between notification and execution.

Special assessment may also become necessary when changes occur in accreditation criteria, organizational structure and in management/ ownership/authorized signatories/location. However, in these cases, the SLAB will give V/VB sufficient time for preparation.

All costs associated with special assessments will be charged to the V/VB.

#### **4.18 Changes in accreditation criteria**

If there is a change in the applicable standard or in the accreditation procedures/policies, SLAB will inform the V/VB in writing indicating the transition policy with specific period for complying with new criteria. Upon receiving such information, the V/VB must confirm to SLAB's transition policy on implementation of changes, its willingness in writing to modify its quality system in accordance with the changes. SLAB may assess the implementation of changes during surveillance and re assessments or conduct special assessment.

#### **4.19 Changes Affecting the V/VB Operations**

In the event of the V/VB informing SLAB about any changes affecting the V/VB's activities and operations, SLAB may organize a special visit. V/VB shall communicate this with relevant documentary evidence. The final decision is communicated to the V/VB along with an

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 16 of 25

amended certificate and schedule of accreditation. The costs associated with the issue of amended certificate and schedule will be charged to the V/VB.

#### **4.20 Reduction of the Scope**

During assessments by the SLAB, the accredited V/VB shall demonstrate that it complies with all accreditation criteria regarding the entire scope and that it has complied with these criteria from the date on which accreditation was granted. If a V/VB is of the opinion that parts of the scope no longer conform to the accreditation criteria, it is expected that the V/VB will withdraw the relevant part of the scope itself. If during an assessment it becomes clear that it is necessary to reduce accreditation for parts of the scope, the SLAB will also review the validity of the remaining accredited scope.

In order to demonstrate that the V/VB has complied with and is complying with the criteria for the complete scope of accreditation, the V/VB shall be able to provide records of the activities carried out. During SLAB assessments, these records shall demonstrate that the procedures for carrying out specific activities have been applied correctly by competent personnel in the past year.

The concerned part of the scope shall be reduced if records do not demonstrate this. If this case when the entire scope is reduced, then the entire accreditation is withdrawn. However, the V/VB concerned can again be granted accreditation after the submission of new application.

#### **4.21 Extension of Scope**

At any given moment, the V/VB can request an extension of the scope. To this end, a written application shall be sent to the SLAB. An assessment for extension of scope will not be initiated, if nonconformities are currently open in related parts of the scope or in the general management system of the V/VB.

The SLAB distinguishes between extension within and extension outside the scope already accredited. Extensions of the scope that fall within the framework of the same accreditation standard will be considered Extension within the scope and if not, it will be considered otherwise. Requests for accreditation involving a different accreditation standard shall be treated as a new application.

Depending on the size and nature of the extension requested, the extent of the assessment needed for the extension will be determined by SLAB on a case by case basis. All costs for extension of scope will be charged to the V/VB.

#### **4.22 Transfer of Accreditation**

If the ownership or name of an accredited V/VB changes, the accreditation may be transferred to the new owner or to the new name if the V/VB involved make such requests in writing. For such a transfer the following pre-conditions apply:

- The V/VB remains operating within the legal and regulatory framework of the country in which it operates;
- The policy and management system remain unchanged;
- The management and key personnel remain unchanged;

<b>SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT</b>				
<b>Title:</b> Rules & Procedures for accreditation of validation/verification bodies			<b>Doc No:</b> VVB-RG (P) -02	
<b>Issue No:</b> 02	<b>Date of Issue:</b> 2023-06-30	<b>Rev No:</b> 01	<b>Date of Rev:</b> 2024-02-01	<b>Page 17 of 25</b>

- The former owner does not remain active in the same sphere of activity or a similar area under the old name or a related name;
- The general composition of the V/VB's personnel remains the same;
- The basic infrastructure and other facilities are not compromised.

The V/VB shall provide the SLAB with the necessary documents showing that the above conditions are met. The costs for reviewing the documents/ conducting onsite or remotereview will be charged to the V/VB.

If all requirements are met, the new V/VB retains the registration/accreditation number and receives the new accreditation documents. The surveillance and re-assessment schedule will remain unchanged.

#### **4.23 Management of Extra ordinary situations**

In the event of an extraordinary situation, SLAB Policy on the management of extraordinary event or circumstances effecting SLAB accredited bodies and their clients AC-RG(P)20 shall be applied .

### **5. Obligations**

#### **5.1.1 General**

A V/VB shall always comply with the relevant regulations and accreditation criteria. This not only applies to accredited V/VBs but also to V/VBs whose accreditation has been suspended.

#### **5.1.2 Co-operation**

The V/VB shall provide the SLAB assessment teams with all the necessary support in order to carry out their work efficiently, safely and honestly, whereby:

- It shall be possible to check the compliance of the V/VB's management system within the criteria;
- It shall be possible to gain insight into the relationship between the documented system and the Standard via an up-to-date review;
- It shall be possible to observe the activities at the V/VB.
- The V/VB shall provide the assessment team with the necessary safety instructions, safety equipment & personnel protective equipment;
  - If requested, the V/VB shall provide access to all relevant locations, equipment, dossiers and documents;
  - In case the assessment of SLAB requires the participation of clients or other related bodies of the VVB, the VVBs shall take measures to assure their participation; in particular VVBs shall have enforceable arrangements with its clients /external service providers holding an accredited certificate, to ensure SLAB access to witness the VVB's Validation/Verification team performing an Validation/Verification at the VVB's client's site.
  - Assessors of SLAB shall not be put in a position where their independence and objectivity could be compromised.

### 5.1.3 Accreditation Symbols

Accredited V/VB have the right to use the applicable accreditation symbol. As such, on grant of accreditation, the V/VB may use SLAB accreditation symbol on letterheads, brochures and any other material issued to its clients including the certificates. However, such usage shall be confined within the scope of Accreditation. V/VB shall comply with the “Policy on governing the use of the accreditation symbol” (AC-RG (P)-01). All statement/claim issued on accredited scope shall carry the accreditation symbol.

Misuse of the accreditation symbol by accredited V/VB may lead to suspension or withdrawal of the accreditation. If non-accredited V/VB use the accreditation symbol, the SLAB can resort to legal action.

### 5.1.4 Reporting Changes

The V/VB shall inform the SLAB immediately of every change that can have considerable impact on the activities covered by the scope. Such changes may be of following nature:

- Changes in the legal, commercial or V/VB’s organizational status;
- Changes in the sphere of activities or economic activities of the V/VB
- Change in management and in structure;
- Policy changes;
- Changes in personnel that fill key positions, such as managers and decision-makers and personnel with specific and unique expertise for the V/VB;
- Changes in location and other resources that can have a significant influence on the accredited activities carried out;
- Significant changes in working procedures.

If a V/VB expects the changes to have a temporary negative effect on the accredited activities, then the V/VB can request a voluntary suspension. In case of that the SLAB possesses the right to carry out extra assessments to ensure that the V/VB again complies with the accreditation criteria before lifting the suspension. If during a surveillance activity of SLAB, it is found that SLAB was not informed about changes may decide to extend the assessment to review the changes and their impacts.

### 5.1.5 Financial Obligations

The V/VB will receive an invoice for all the accreditation activities carried out by the SLAB. The amount invoiced will depend on the number of man-days worked; the applicable fee and other costs be found in VVB-RG(P)-01. A V/VB shall take prompt actions to settle such payments. If V/VB does not make payment on time, the SLAB sends a reminder and late payment charges may apply. If payment is still not made then, the suspension procedure will begin. If there are payments outstanding during the initial phase of the accreditation process, the SLAB has the right to halt the accreditation process until payment is made.

Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 19 of 25

## 5.2 SLAB

### 5.2.1 Behavior of Assessment Teams

The assessment team will limit its assessment activities to an investigation of whether the V/VB complies with the applicable criteria. In doing so, Assessors will make use of the relevant criteria documents, scope-related documents (including standards, descriptions of methodology, diagrams etc.) and generally accepted interpretations. Assessors may not accept any gifts, presents etc. from V/VB that may compromise their neutral role in assessments. Assessors will follow the health and safety instructions of the V/VB being assessed.

### 5.2.2 Confidentiality

SLAB will treat all the information obtained or created during the accreditation process of V/VBs/sources other than the V/VBs as strictly confidential, unless otherwise required to be disclosed under a legal or regulatory framework and unless agreed by the source.

Legally enforceable agreements are made available to safeguard the confidentiality of the information obtained in the process of accreditation at all levels of SLAB including the staff of SLAB, committees, service providers, Assessment team, or other bodies or individuals acting on behalf of the SLAB. Confidential information related to any V/VB shall not be disclosed, outside the SLAB without written consent of that particular V/VB, unless otherwise required by law. Any information about a V/VB obtained from other sources is not shared with that V/VB unless agreed by the source.

## 6. Suspensions, withdrawals and reductions

Suspension, Withdrawal and Reduction of scope of accreditation arises, in the event of a V/VB persistently failing to meet the requirements of accreditation criteria, and/or violating the Rules and procedures and Terms and Conditions agreed upon at the stage of granting accreditation. On V/VB's request, the scope may also be suspended, withdrawn or reduced.

SLAB will take decision on suspension of accreditation for a maximum of four months or withdrawal/reduction of accreditation with immediate effect. Any failure to rectify the issues related suspension within the given period, accreditation shall be withdrawn/reduced with immediate effect and the decision will be informed to V/VB and published in SLAB web site. SLAB may issue a revised certificate/schedule of accreditation.

### 6.1 Suspensions

During the suspension period, the V/VB may not make use of the accreditation symbol or in any other way actively refer to the accredited status.

A suspension is lifted, if an additional assessment shows that the reason for the suspension no longer exists. If the suspension period ends without this being the case, the SLAB implements the withdrawal procedure. If the V/VB action to reinstate accreditation within four months another two months maximum will be given to complete reinstated. Any further action to rectify the issue related to suspension within the given period it should be informed to the Accreditation committee. If the decision is to suspension in writing and may issue revised certificate or schedule of accreditation

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 20 of 25

A V/VB may request a voluntary suspension from the SLAB if it is temporarily unable to comply with the accreditation criteria. In such circumstances, the V/VB is not permitted to make use of the logo or refer to the accredited status. It is not possible to submit a request for a voluntary suspension during the period that a SLAB assessment is being carried out.

## 6.2 Withdrawal and reduction

The accredited V/VB and the SLAB can withdraw/reduce the scope of accreditation. From the moment of withdrawal/reduction, the V/VB will have to refrain from using the accreditation symbol or otherwise referring to the accredited status for the full/part of scope of accreditation. In such situations the certificates issued under SLAB-accreditation shall also have to be withdrawn or reissued.

If V/VB wishes, for whatever reason, to terminate its scope of accreditation in full/part, it shall submit a request to the SLAB for voluntary withdrawal/reduction in writing. Withdrawal shall apply to the entire scope and reduction shall apply for part of the scope. The SLAB confirms the withdrawal/reduction in writing.

When SLAB determines that a suspension of full/part of the scope of accreditation, has not been lifted within the applicable period or if evidences are found to substantiate that the V/VB brings the accreditation into grave disrepute, the SLAB will impose the withdrawal/reduction. SLAB informs the V/VB of the withdrawal/reduction in writing. After a withdrawal, the SLAB will not accept an application for accreditation from the same V/VB within a period of six months.

## 7. Disputes, complaints and appeals

### 7.1 Disputes

The SLAB defines a dispute as difference of opinion between the accredited V/VB or the applicant V/VB and the SLAB with regard to:

- The interpretation of a requirement of a standard;
- The working procedure of the SLAB.

The V/VB can report the existence of such dispute to the Director/CEO, SLAB in writing. The Director/CEO, SLAB will consult with the parties involved. The decision will be communicated to the parties in writing.

All dispute if any, arising out of SLAB decisions that remain unresolved through internal mechanism provided by SLAB are subject to the Alternate Dispute Resolution (Arbitration). If fails can initiate litigation within the jurisdiction of the Courts in Sri Lanka and exclusive jurisdiction of the Courts in Sri Lanka.

### 7.2 Complaints

The SLAB distinguishes two types of complaints:

- Complaints about the SLAB and its personal on behalf
- Complaints about registered or accredited V/VBs.

In both these cases Director/CEO, SLAB or the panel appointed by him/her will investigate the complaints.

SRI LANKA ACCREDITATION BOARD FOR CONFORMITY ASSESSMENT				
Title: Rules & Procedures for accreditation of validation/verification bodies			Doc No: VVB-RG (P) -02	
Issue No: 02	Date of Issue: 2023-06-30	Rev No: 01	Date of Rev: 2024-02-01	Page 21 of 25

The complaints will be handled in accordance with the Procedure for handling of Complaints (GN-PR(P)-08) which is available on SLAB website.

### 7.3 Appeals

V/VB are free to make appeals against decisions taken by the SLAB such as appointment of assessors, grant of accreditation, reduction/ expansion of scopes, suspensions/ withdrawal etc. All such appeals will be dealt with in accordance with the procedure for dealing with appeals (AC-PR(P)-09) which is available through SLAB website.

## 8. Publicity

SLAB publishes the details of scope of accreditation & accreditation status of the accredited V/VB along with their contact addresses and suspension/withdrawal of accreditation status in SLAB web site.

SLAB posts all Rules and Procedures, Terms and Conditions, Fee Structures and Applications and supportive documents and subsequent changes in the SLABs official website. V/VB are required to implement such changes as per instructions given by the SLAB.

## 9. Liability

SLAB will not be responsible for any damages, which the V/VB may suffer as a result of any action or negligence by those who are carrying out the tasks on behalf of SLAB and any failure to the grant of accreditation or abeyance / suspension forced withdrawal of the accreditation, and neither shall SLAB be held responsible for any damage whatsoever, caused to any party by the acts of V/VB.

V/VB shall have adequate provisions (Insurance coverage or reserve) to cover liabilities arisen from its operation.
