WE ARE HIRING GRADUATE TRAINEES

Requirements

- ◆ Bachelor's degree from a recognized institution, preferably in science, Environment sustainability related subjects or Environmental science
- ◆ Knowledge of certification schemes (Ex ISO 9001, ISO 14001, ISO 50001, ISO 45001) /GHG emissions/removals calculations/life cycle assessments/carbon crediting/carbon offsetting/the carbon footprint of products, and related schemes will add value.

SLAB, Sri Lanka's accreditation board, Being an institute complies with ISO/IEC 17011 and being a signatory to ILAC MRA, IAF MLA and APAC MRA, SLAB offers internationally recognized accreditation services to our clients

SLAB accredits Conformity assessment Requirements for bodies providing audit and certification of management systems to deliver a range of management system certification programs as well as Validation and Verification Bodies (V/VBs), elevating professional standards locally and internationally.

With the current demand, SLAB has expanded its scheme requirements to cover emerging validation and verification schemes such as GHG emissions, Carbon Credits, Carbon Footprint of Products, ICAO-CORSIA, Gold Standard, and VERRA standards in accordance with ISO/IEC 17029:2019, ISO 14065:2020.
